Our innovative, life-enhancing products enable you to enjoy everyday living, sharing the warmth with endless hot water

SimpliHot, an electric Hot Water Tap by EcoSmart providing endless, dependable and consistent hot water on-demand, SimpliHot's compact model is easy to install, and its sleek integrated design works well in all smart homes, kitchen remodels, in utility basins, or for commercial use. EcoSmart hot water efficiency is the result of a closed-loop system that dispenses hot water on demand, while reducing heating loss and water waste. The new LED digital display gives the user the digital data control that they want, at their fingertips.

Fill the demand for instant hot water with the new SimpliHot.

SimpliHot™

ECOTD33240

Electric Hot Water Tap with LED Digital Display

Reliable

A dependable water heating solution that heats water on-demand and ensures consistent temperature output (+/-2° F/C at steady state)

Convenient

Provides instant and endless hot water on-demand. 180 degree tap rotation allows you direct water where you want it.

Efficient

A closed-loop system that dispenses hot water on demand, while reducing heating loss.

Modern

Features a sleek integrated design, incorporating electric tankless water heating technology within the tap to heat water directly at the source.

Safe

Features overheat and leakage protection, as well as water and electricity isolation within the design to ensure safe operation.

Easy Installation

Compact design saves valuable basin and under basin space. Tap fits standard single-hole configurations.

SimpliHot electric hot water tap is ideal for household and commercial use where there is no hot water supply. It can be used in the kitchen, laundry room, or garage.

- Heat and access water from a single source
- Sleek modern design
- Easy to install
- Fits standard single-hole configurations
- Digital temperature controls
- Safe operation
- Endless hot water
