

MODEL: RGEA15

PACKAGE GAS ELECTRIC UNITS

The Russell™ By Rheem RGEA15 Package Gas Electric Units are designed for long-lasting performance so you can make the most of your moments at home.

- **Quiet and Durable.** Our RGEA15 Package Gas Electric Units are developed with features that provide unmatched durability for years of worry-free operation.
- **Exceptional Operation.** The micro-channel refrigerant system is responsible for superior heat transfer capabilities.

MODEL: RGEA15 PACKAGE GAS ELECTRIC UNITS

Efficient operation and greater comfort is what you'll get with the RGEA15. Designed with a micro-channel refrigerant system that includes all-aluminum evaporator and condenser coils. These coils fight corrosion and keep your unit operating like a pro. Micro-channel design is also responsible for superior heat transfer capabilities and uses up to 58% less refrigerant than standard copper tube aluminum fin coil models.

Quality and durability are built into the RGEA15. The unique water management design diverts water away from the critical components of your unit, preventing leaks and other potential problems. The louvered coil protection prevents damage to the coil fin, which keeps the coil running longer for a better overall performance. And for unmatched durability, our direct spark ignition with remote flame sensing provides unmatched reliability for years of worry-free operation.

Quieter operation is attributed to several design features of the RGEA15. A durable cabinet combined with our scroll compressor and an elevated base pan helps reduce noise for comfort that's as quiet as it is durable.

Russell™ By Rheem is a new name in HVAC backed by 70+ years in the temperature-control industry developed to meet your needs and budget through practical, dependable HVAC products—Air Conditioners, Heat Pumps and Gas & Electric Furnaces—offering great performance with only the bells and whistles that matter, to keep your family comfortable day after day.

¹Annual Fuel Utilization Efficiency (AFUE) measures the amount of heat delivered to a home compared to the amount of fuel that is supplied to the unit. Higher AFUE ratings reflect higher efficiency. ²For complete details of the limited and conditional warranties, including applicable terms and conditions, contact your local Contractor or go to RussellByRheem.com for a copy of the product warranty certificate. Conditional warranties must be registered through registermyunit.com. ³All models except RGEA15060.
