

MODEL: SA17 AIR CONDITIONERS

The Russell™ By Rheem SA17 Air Conditioner offers an energy saving, quiet performance.

- **Quiet and efficient comfort** is what you get with the SA17 Air Conditioner—for indoor home comfort you can count on when you need it most.
- **Increased comfort** is what you can expect. The two-stage scroll compressor provides more precise temperature control and humidity levels for increased comfort.

MODEL: SA17 AIR CONDITIONERS

Legendary two-stage scroll compressor makes the SA17 as efficient as it is durable. A single-stage unit runs at one speed, but the two-stage SA17 modulates between two speeds—high and medium. It will operate on medium speed most of the time, providing more precise temperature and lower humidity while also reducing energy use. The system only operates on high when necessary during peak, warm weather conditions. The compressor also has 70% fewer moving parts—which means you get a unit that's more efficient and durable. The optimized fan orifice contributes to quieter operation, optimal airflow and better overall performance.

A quieter, more durable unit starts with our new composite base pan. The design helps eliminate corrosion and adds to quieter performance. Extensive UV testing was done to ensure that the base pan stays black for years to come. Our improved refrigerant tubing design also contributes to a quieter operation. For added strength, the wire grille on the exterior does an outstanding job protecting the inside.

A visually appealing cabinet design means our air conditioners look as good as they operate. Plus the powdercoat paint system provides a lasting professional finish.

Russell™ By Rheem is a new name in HVAC backed by 70+ years in the temperature-control industry developed to meet your needs and budget through practical, dependable HVAC products—Air Conditioners, Heat Pumps and Gas & Electric Furnaces—offering great performance with only the bells and whistles that matter, to keep your family comfortable day after day.
