ENDEAVOR®

Peace-of-Mind Performance

Relax, you're covered by one of the best warranties in the industry¹—10 Year Conditional Parts in residential applications.

Small Spaces Approved

If outdoor space constraints are part of the equation, let our dedicated horizontal packaged air conditioners and heat pumps be your solution. With a compact footprint and flush-to-the-wall installation, both products are perfect for times with zero lot line requirements, sloped roof placement, manufactured homes and small spaces.

Durable Curb Appeal

The steel cabinet with a louvered coil guard provides excellent internal protection, while the overall modern cabinet aesthetics, including the powder coat paint system, allow your air conditioner or heat pump to put its best face forward for years to come.

Reduced Emissions (RHPSYB only)

Households generate 72%² of greenhouse gas emissions, so switching to a heat pump can make a big difference for the environment—today.

**TESTED.
TRUSTED.
TOUGH.**

From the smallest part to complete comfort systems, we engineer quality into everything we make so we can be sure it's tough enough to deliver the ultimate performance you can count on day after day, year after year. That reliability is what makes Ruud different—and better.
