

MODEL: S802V

Upflow/Horizontal GAS FURNACES

The Russell™ By Rheem S802V Gas Furnace is designed for years of worry-free comfort. It's also quiet, so you can stay focused on what matters most.

- **Reliability** is something we take seriously. That's why our gas furnaces are engineered with the exclusive Direct Spark Ignition System which is the most reliable ignition system in the industry and ensures that your furnace will light right every time.
- **Efficiency and comfort** are achieved with the two-stage variable-speed motor—it delivers the right amount of heat for a more comfortable home and a lower utility bill.
- **Peace of mind** comes with the S802V Furnace. Patented features ensure year-round reliability and the 10-year conditional parts and limited lifetime heat exchanger warranty means you're covered.¹

MODEL: S802V

Upflow/Horizontal GAS FURNACES

Reliability is very important to your family's comfort. The proven direct spark ignition (DSI) used on Russell™ By Rheem furnaces is one of the most reliable systems available today. This technology is the same proven design used on gas ovens and stoves. The patented heat exchanger is quick and easy to clean—when needed—by your local independent Russell By Rheem Dealer. And a clean furnace is a long-running furnace.

Two-stage operation offers a more consistent indoor environment and keeps cold spots to a minimum by primarily operating on low speed, only temporarily switching to high during peak cold-weather conditions. The variable-speed fan motor moves at different speeds to efficiently control air flow.

Quiet operation is the result of a tighter door seal that helps eliminate whistling. We've also added rubber grommets on the motor mounts and a twist-lock wire harness in the blower shelf. All this results in an impressively quiet furnace.

Efficiency installation and maintenance features benefit homeowners, too. The 7-segment LED display is a feature that makes service calls quick and easy.

Russell By Rheem is a new name in HVAC backed by 70+ years in the temperature-control industry developed to meet your needs and budget through practical, dependable HVAC products—Air Conditioners, Heat Pumps and Gas & Electric Furnaces—offering great performance with only the bells and whistles that matter, to keep your family comfortable day after day.
