MODEL: RF1T AIR HANDLERS

Humidity control. The RF1T Air Handler manages humidity levels in the home, improving your comfort and helping you save money on energy bills.

Designed for performance. Russell™ By Rheem air handlers have a factory-installed indoor aluminum coil, which is the key component for your air handler. The coil is essential to humidity control and improved system performance, and the high-quality standards used in manufacturing result in fewer maintenance calls. Other quality features include a new lanced fin design and condensate drain pan. The corrosion-resistant aluminum endplates keep your unit looking as good as it runs.

Quiet operation. RF1T Air Handlers are designed with a sturdy steel cabinet and one inch of foil-faced insulation, offering excellent thermal and sound insulation.

Russell By Rheem is a new name in HVAC backed by 70+ years in the temperature-control industry developed to meet your needs and budget through practical, dependable HVAC products—Air Conditioners, Heat Pumps and Gas & Electric Furnaces—offering great performance with only the bells and whistles that matter, to keep your family comfortable day after day.
