**Floating Air®**

VERSATILE, SUPER-  
EFFICIENT & ULTRA-QUIET

## RHEEM® FLOATING AIR™ DUCTLESS MINI-SPLIT SYSTEMS

Keeping your home comfortable has never been more convenient—or customizable. Designed to match your unique heating and cooling needs, Rheem® Floating Air™ Ductless Mini-split Systems are available in single- and multi-zone options. Plus, every unit offers high energy efficiencies and quiet operation, delivering year-round peace of mind.

# Why Choose Rheem®

## Floating Air™ Ductless Mini-split Systems

Designed to excel in both residential applications and light commercial applications, Rheem Floating Air mini-split systems can efficiently heat and cool one room or multiple rooms. With ductless systems you experience:

### Zero Duct Loss

According to the DOE, ducted systems lose an average of 25–40% in performance due to leaks, cracks or disconnections in ductwork. No ductwork means that ductless systems do not experience duct loss, saving energy and money.

### Heating & Cooling Flexibility

Rheem Floating Air units are available in single-zone or multi-zone systems, making it easy to find the heating and cooling solution to best fit your needs.

### No Dirty Ducts

With a ductless system, there's no need to clean dirty air ducts that can harbor dust, germs and allergens.

### Total Installation Flexibility

With Rheem Floating Air systems, you can mix and match your outdoor unit with various indoor unit types: wall-mounted, ceiling cassettes, The Insider® concealed ducted models, and even a ducted air handler.

### Wall-mounted Units

Mount to the wall and include time-saving features to make installation and service faster and easier, ultimately saving you money.

### Ceiling Cassette Units

Install in a drop-ceiling and mount flush to the ceiling for a clean look and efficient installation.

### The Insider® Concealed Ducted Units

Install in the ceiling or furr down, providing hidden-from-sight comfort. In multi-zone systems, conditioned or non-conditioned air can be added to the ducting to allow fresh air into the conditioned space as desired.

### Air Handler

In applications where ductwork makes the most sense, such as replacing an existing system, the **air handler option delivers the best of both worlds**—the convenience of whole-home comfort with the small space and low sound of a side-discharge outdoor unit. It can also be used in a multi-zone configuration with another indoor unit type(s) for additional flexibility.

# Comfort Customized to Your Needs

Comfort shouldn't be complicated. No matter what you're looking for, Rheem® Floating Air™ systems—both single-zone and multi-zone—are packed with industry-leading advancements to meet your unique temperature needs while delivering high efficiencies and energy cost savings.

## Single-zone Systems

A single-zone system is best if you are looking to efficiently cool and heat a single room or space. Single-zone systems are a great alternative to traditional central HVAC systems.

## Multi-zone Systems

A multi-zone system is best if you're looking for customized and efficient comfort for multiple rooms. Multi-zone systems allow you to set room-by-room temperature preferences for up to five zones. Plus, occupants can set the temperature of each zone to their preferred comfort level<sup>1</sup> or turn off units in unoccupied rooms without impacting other zones.

<sup>1</sup>Multi-zone units cannot heat and cool simultaneously.

### Easy Service & Maintenance

Designed with HVAC technicians in mind, wall-mounted units feature our PlusOne® **FastPro**®—which allows quick removal of the blower wheel assembly for easy maintenance, saving significant time on the job.

### Precision Comfort

Floating Air units feature a Precision Inverter® compressor that ramps up quickly with Soft-Start™ technology to reach the indoor set temperature, then maintains precise temperature control for perfect comfort—and ongoing savings.

### Built to Perform & Built to Last

All systems are designed to heat and cool efficiently—and select systems can operate efficiently in extreme temperatures, with cooling in ambient temperatures as low as 5°F and heating down to -22°F. Plus, all models feature Diamonblue™ Advanced Corrosion Protection, extending the unit's life.

### Smart Control

Adjust the set point, schedule, control multiple units in unison, and more, at home with the included wireless remote or on the go with the convenience of the ComfortPro mobile app.

# Precise Performance & Powerful Features

Floating Air™ mini-split systems are built to deliver precise comfort and are packed with innovative features to help keep your environmental footprint and energy bills low.

## Saving Energy While Maximizing Comfort

Traditional air conditioners have on/off compressors that result in wild temperature swings, inefficient energy use and hard stops/starts that may shorten the life of the unit.

The **Precision Inverter**® variable speed compressor adjusts up or down based on need, providing the user precise temperature control, exceptional energy efficiencies and dependably quiet operation.

**PRECISION  
INVERTER**®

Automatically adjusts  
its performance based on  
the room's need.

## At Home in the Extreme Cold

We designed Floating Air *Prestige*® Series models to work all the way down to -22°F. So they're ready for whatever winter can dish out nearly everywhere. In fact, all *Prestige*® Series models are ENERGY STAR® Cold Climate Heat Pump certified.

## Sustainable Operation

All Floating Air models utilize low-GWP refrigerant, with *Classic*® Series utilizing R-32 with a GWP of 675 and *Classic Plus*® and *Prestige*® Series utilizing R-454B with a GWP of 466. Plus, many models are ENERGY STAR® certified, providing even greater energy savings.

## Built-in Wi-Fi Connectivity

- Available on all wall-mounted and ceiling cassette models
- Easy-to-use ComfortPro mobile app
- Create customizable, seven-day schedule

# Easy-to-clean Design for Fast Servicing & Greater Savings

## Save Time With PlusOne® **FastPro**® Easy-service Design

All wall-mounted units<sup>1</sup> feature alignment arrows to help contractors mark and drill holes with total confidence, while kickstands tilt the unit away from the wall, providing ample workspace. Floating Air units also feature:

### MODULAR DRAIN PAN ASSEMBLY

Easy to remove for cleaning

### QUICK ACCESS

Tangential blower and motor for easier repairs

### CLEAR PIPING ACCESS

Simplifies maintenance tasks

### WIRE TERMINAL BLOCKS

Easy to access for servicing

### ONBOARD ERROR CODES

Ensure trouble-free operation

### COMPLETE COIL ACCESS

For easy cleaning

**40% FASTER<sup>2</sup>**

<sup>1</sup>Excludes FAHSW36A3D. <sup>2</sup>Faster than similar installation, cleaning and service performed on standard ductless wall-mounted units.

## Simplified Troubleshooting

Diagnostics are faster, easier and more accurate with the built-in troubleshooting tool on Rheem multi-zone outdoor units, helping the contractor to save even more time.

## We Thought of Everything... & Then Some

We evaluate every detail of a product from top to bottom, inside and out and every angle in between. That's 360°+1. And that's why you can count on these ductless mini-split systems to bring you and your family years of efficient and dependable comfort.

# Find the Line

## That Best Suits Your Needs

We offer three exceptional lines of ductless mini-splits, each with unique features for simple installation, resulting in savings and easier maintenance visits. All models feature built-in Wi-Fi, auto restart, surge cool/heat, dry mode, auto clean and advanced corrosion protection.

# Floating Air® PRESTIGE® SERIES WALL-MOUNTED HEAT PUMPS

FEATURING OUR PLUSONE® **FastPro®** EASY-SERVICE DESIGN

GOOD | BETTER | **BEST**

## Key Features

- **FastPro®** design for the fastest access for maintenance of any wall-mounted ductless systems
- All models ENERGY STAR® and ENERGY STAR® Cold Climate Heat Pump certified

SMART HOME  
READY

- **Precision Inverter®** technology (variable speed compressor)
- Soft-Start™ compressor
- BLDC motor
- Built-in Wi-Fi
- Sleep mode
- Ultra quiet operation

 indicates sustainability feature

- Extreme cold climate heat pump performance: 100% of rated capacity at 5°F\*
- Extreme low ambient heat pump operation
- Easy-to-read temperature display
- Wireless remote control included

\*Prestige Series Multi-zone 42K BTU models operate at 86% capacity at 5°F

## Single-zone

FPHFR09A3D, FPHFR12A3D

FPHFR18A3D, FPHFR24A3D

- Low ambient heat pump operation down to -22°F
- Low ambient cooling operation down to 5°F
- Low temperature compressor start-up protection

## Multi-zone

FPHMR18A3D

FPHMR27A3D, FPHMR36A3D,  
FPHMR42A3D

- Low ambient heat pump operation down to -13°F
- Low ambient cooling operation down to 5°F
- Low temperature compressor start-up protection

## FLOATING AIR™ *PRESTIGE*® SERIES | MULTI-ZONE CONFIGURATIONS

Mix and match any combination of indoor units up to the maximum connected capacity.

**FPHMR18A3D**  
24,000 Btu  
MAX. CONNECTED CAPACITY

### 2 ZONES

MINIMUM combination must be 50% of nameplate capacity

**Combinations SHOULD NOT:**  
Exceed the maximum allowable total indoor unit connected capacity of 24,000 Btu.

**FPHMR27A3D**  
36,000 Btu  
MAX. CONNECTED CAPACITY

### 2 ZONES

MINIMUM combination must be 50% of nameplate capacity

### 3 ZONES

Select any combination of (3) indoor units.

**Combinations SHOULD NOT:**  
Exceed the maximum allowable total indoor unit connected capacity of 36,000 Btu.

**FPHMR36A3D**  
48,000 Btu  
MAX. CONNECTED CAPACITY

### 2 ZONES

Select two (2) 18,000 Btu indoor units

### 3 ZONES

Select any combination of (3) indoor units with no more than (2) 18,000 Btu indoor units plus (1) other indoor unit.

### 4 ZONES

Select any combination of (4) indoor units.

**Combinations SHOULD NOT:**  
Exceed the maximum allowable total indoor unit connected capacity of 48,000 Btu.

**FPHMR42A3D**  
54,000 Btu  
MAX. CONNECTED CAPACITY

### 3 ZONES

Select any combination of (3) indoor units with no more than (2) 18,000 Btu indoor units plus (1) other indoor unit.

### 4 ZONES

Select any combination of (4) indoor units.

### 5 ZONES

Select any combination of (5) indoor units.

**Combinations SHOULD NOT:**  
Exceed the maximum allowable total indoor unit connected capacity of 54,000 Btu.
