## Reduce Energy Bills

Reducing your monthly energy bills is easier than ever because the heart of the Ruud RHMV Air Handler is the high-efficiency, constant CFM, variable-speed blower motor which modulates the airflow based on cooling demand for enhanced SEER performance.

## Advanced Comfort

The sturdy design of the air handler adjusts airflow in the home to help control humidity. Airflow can be set for specific needs, so your home feels just the way you want it.

## Smart Controls & Alerts

Innovative technology sends you important alerts and reminders to keep your system working at its best. Plus, it's easy to adjust your comfort settings from home or away<sup>1</sup>.

RELY ON RUUD.™

## Ruud Philosophy of Reliability

Designed to keep your family comfortable for years to come, Ruud® products are developed using the 360°+1 design philosophy. The Ruud brand strives to deliver the very best homeowner experience by evaluating every detail of the product from every angle. That's 360°+1. And that's why you can rely on Ruud heating and cooling solutions to bring you and your family years of comfort.

The RHMV Air Handler is designed to operate with the EcoNet® Smart Thermostat. This easy-to-use thermostat optimizes system performance and includes great features like:

- Simple scheduling and one-touch energy savings
- Remote access via the EcoNet App
- Important equipment alerts sent directly to your phone or email
- Convenient voice control – just ask “Alexa, make home cooler”<sup>2</sup>

### Energy Savings

The heart of an air handler is the blower motor. That's why Ruud RHMV Air Handlers feature a high-efficiency, constant CFM, variable-speed motor with modulating airflow. When the unit is matched with a two-stage or variable-speed air conditioner or heat pump, it is able to run at a lower speed the majority of the time. This provides even temperatures so there is no need to continuously adjust your thermostat, reducing your energy usage.

### Humidity Control

An air handler will help manage humidity levels in the home, improving your comfort and helping you save money on energy bills.

### Efficient Heating & Cooling

The **1** factory-installed indoor aluminum cooling coil is the key component for your air handler. The coil is essential to humidity control and improved system performance, and the high-quality standards used in manufacturing ensures a long-lasting, reliable performance.

### Quiet Operation

The Ruud RHMV Air Handler is designed with a **2** sturdy steel cabinet with **3** one inch of foil-faced insulation, offering excellent thermal and sound insulation.

### Ruud Quality

The air handler features a lanced fin design for maximum performance and increased efficiency. A high-grade condensate drain pan keeps the unit operating smoothly, especially when the weather heats up. And the corrosion-resistant aluminum endplates keep your unit looking as good as it runs.

### Benefits At-A-Glance

#### Motor:

Constant CFM Variable Speed Modulating Airflow

#### Evaporator Coil:

All-Aluminum

#### Limited Warranty<sup>3</sup>:

Conditional parts warranty—10 years
