

💥 Water

The new degree of comfort."

# Professional *Classic Plus*<sup>®</sup> Heavy Duty Power Direct Vent gas water heaters are a perfect choice for tight construction and indoor air quality

### Efficiency

• .63 UEF

#### Performance

 Recovery Capacity: 72.8 gallons per hour (delivers approximately 120 gallons of hot water in the first hour)\*\*

### Self-Diagnostic System

• Electronic gas control for improved monitoring and service

### Low Emissions

• Eco-friendly burner, low NOx design

### Features

- Two pipe system: one pipe pulls in outside air for combustion and the other exhausts combustion gases
- 120 VAC powered blower
- New whisper quiet blower

### Flammable Vapor Detection System

 Protective control system that disables the heater in the presence of flammable vapor accumulation

# **Flexible Venting Options**

- Long venting lengths up to 100 feet
- PVC, ABS, or CPVC vent and air inlet options
- Vertical or horizontal vent and iar inlet system configurations
- 3" and 4" Concentric vent kits available

### Longer Life

• Premium grade anode rod provides long-lasting tank protection

### **High Altitude Compliant**

• Models are certified for applications up to 10,100 feet above sea level

#### Plus...

- Enhanced flow brass drain valve
- Temperature and pressure relief valve included
- Low lead compliant
- Durable silicon nitride igniter (HSI)
- Side taps for space heating
- EverKleen® patented system fights sediment build-up
- Standard replacement parts

### Warranty

- 8-Year limited tank and parts warranty\*
- With ProtectionPlus<sup>™</sup> the 8-year limited tank warranty becomes 12-year

\*See Warranty Certificate for complete information

Units meet or exceed ANSI requirements and have been tested according to D.O.E. procedures. Units meet or exceed the energy efficiency requirements of NAECA, ASHRAE and all state energy efficiency performance criteria.

Safety and Construction | Design certified by CSA: For operation at 160 degrees; meets all safety and construction requirements of ANSI Z21.10.3; as an automatic storage water heater; and for operation on combustible floors and in alcove installations. All models are North Carolina Code compliant. Certified for 150 PSI maximum working pressure.

Professional *Classic Plus* Heavy Duty Power Direct Vent

75-Gallon Capacities 75,100 BTU/h Natural and LP Gas

See specifications chart on back.
