ULTRA SERIES

U96V

96% AFUE Efficiency¹

Ultimate Comfort

We've improved airflow, which means you get fewer cold spots and better overall indoor air quality during every season.

Maximum Efficiency

A 96% Annual Fuel Utilization Efficiency (AFUE) guarantees this gas furnace makes the most of every drop of fuel¹.

Exceptional Quality & Reliability

The Ultra Series Gas Furnace is designed with the exclusive PlusOne® Ignition System, which is the most reliable system on the market today.

Smart Controls & Alerts

This innovative technology sends you important alerts and reminders to keep your system working at its best. Plus, it's easy to adjust your comfort settings from home or away².

RELY ON RUUD.™

RELIABLE COMFORT & SAVINGS THAT OUTPERFORM

The Ruud® *Ultra™* Series U96V Gas Furnace embodies the philosophy that the best design delivers everything Ruud customers need and want... and then some. It's a commitment to examine every aspect of every Ruud product from every angle, to offer the ultimate in performance, installability, serviceability, durability, integration, peace-of-mind and partnership for consumers and industry professionals alike.

Engineered For Long-Lasting Comfort

Industry-first patented features and 360°+1 engineering make the Ruud *Ultra* Series U96V Gas Furnace a smart option. From top to bottom, inside and out, and every angle in between, Ruud thought of everything to bring you **efficient** and **reliable** indoor comfort.

Maximum comfort & performance

The U96V has a two-stage operation that offers a more **consistent indoor environment**—keeping cold spots to a minimum. The two-stage heating design primarily operates on low-speed, only temporarily switching to high during peak cold-weather conditions.

Quieter than ever before

The patented heat exchanger design provides improved airflow, which reduces operating sound by 20%³. The variable-speed ECM motor also contributes to quieter, more efficient operation and better humidity control, while using less power. Overall, this is one of the **quietest furnaces on the market**. And because of its high-efficiency, your monthly energy bill will benefit, too.

Rock-solid reliability

The U96V comes standard with the **PlusOne Ignition System**. The proven technology of the Direct Spark Ignition (DSI) is one of the most reliable ignition systems available today. It is used only on Ruud residential gas furnaces as well as ovens and stoves—appliances you rely on daily.

Engineered for Long-lasting Comfort

- 96% AFUE – This means maximum efficiency for you, and may qualify you for local and / or utility rebates
- Two-Stage operation – Provides superior comfort by knowing when to switch into high gear, so there is no need for you to adjust the thermostat.
- Variable-speed ECM motor – Uses less energy than a single-stage motor; It's engineered for better dehumidification, which provides you with better indoor air quality

More Peace-of-Mind

The Ruud *Ultra Series U96V Gas Furnace* is not only high-performing, it also saves you **energy** and **money**. A 96% AFUE rating may qualify you for local and/or utility rebates. It's everything you need in a gas furnace—and more.

Save energy & money

Maximum airflow and a patented heat exchanger mean the Ruud *Ultra Series Gas Furnace* uses fuel efficiently and economically. It gets an ENERGY STAR® rating for maintaining comfortable temperatures while reducing energy consumption and lowering utility bills.

Utility rebates

Widely offered as incentives to **reduce energy consumption**, rebates make responsible use of resources. And with a 96% AFUE rating, you may be eligible. Visit Ruud.com/Rebate to check your state's policy on local utility and municipality rebates—then get ready to reap the rewards for choosing the best.

The *Ultra Series U96V Gas Furnace* is designed to operate with the EcoNet® Smart Thermostat. This easy-to-use thermostat optimizes system performance and includes great features like:

- Simple scheduling and one-touch energy savings
- Remote access via the EcoNet App
- Important equipment alerts sent directly to your phone or email
- Convenient voice control – just ask “Alexa, make home cooler”⁴

Ruud Philosophy of Reliability

Designed to keep your family comfortable for years to come, Ruud® products are developed using the 360°+1 design philosophy. The Ruud brand strives to deliver the very best homeowner experience by evaluating every detail of the product from every angle. That's 360°+1. And that's why you can rely on Ruud heating and cooling solutions to bring you and your family years of comfort.

How to Speak Heating & Cooling

Single-Stage

One level of operation, with no differentiation between peak or non-peak heating demands.

Two-Stage

More than one level of operation, which saves energy during non-peak heating demands.

Efficiency

Description for how effectively incoming energy converts to outgoing energy. Higher numbers mean a more efficient unit—and lower operating costs.

AFUE

Annual Fuel Utilization Efficiency. Used to express the efficiency of gas furnaces. The higher the AFUE rating, the more efficient the unit.

Heat Exchanger

Responsible for transferring heat from furnace burners to the blower. Ruud offers some of the best heat exchangers in the industry, plus limited lifetime warranties on some models⁵.

Variable-Speed ECM Motor

Used in higher-efficiency indoor and outdoor units. Automatically adjusts the flow of warm or cool air in your home for ultimate comfort.

Benefits At-A-Glance

PlusOne® Ignition System:

Direct spark ignition

PlusOne® Diagnostics:

7-segment LED display

PlusOne® Water Management System:

Patented Blocked Drain Sensor

PlusOne® Energy Efficiency:

96% AFUE¹ rating

Motor:

Variable-speed ECM motor operation for ultimate comfort

Sound Level³:

Improved airflow for 20% quieter operation

Limited Warranty⁵:

Parts—10-year
Heat exchanger—Limited Lifetime
Conditional unit replacement—10-year

YOUR LOCAL RUUD CONTRACTOR

¹Annual Fuel Utilization Efficiency (AFUE) measures the amount of heat delivered to a home compared to the amount of fuel that is supplied to the unit. Higher AFUE ratings reflect higher efficiency. ²WiFi broadband internet connection required. Download the EcoNet® App from the App Store® or Google Play® to set up your EcoNet Smart Thermostat. Receipt of notifications depend on home WiFi set up. ³Testing showed, on average, a 20% reduction in sound when compared to previous Ruud Gas Furnace models. ⁴Amazon, Alexa and all related logos are trademarks of Amazon.com, Inc. or its affiliates. ⁵For complete details of the limited and conditional warranties, including applicable terms and conditions, contact your local contractor or go to Ruud.com for a copy of the product warranty certificate. Conditional warranties must be registered through RegisterMyUnit.com.
