

# MODEL: RQRM PACKAGE HEAT PUMPS

Sure Comfort® RQRM Package Heat Pump is an all-in-one high efficiency heating and cooling solution that keeps all the equipment outside – so you can enjoy quiet comfort inside.

- **Comfort and Savings.** High efficiency 16 SEER cooling and up to 8.5 HSPF heating means you save energy and money.
- **Quality and Durability.** The motor design in the RQPM Package Heat Pump protects from overheating and ensures quiet, dependable operation while the Copeland Scroll™ delivers proven performance.
- **Unique Features.** The galvanized steel cabinet, grille/fan motor mount and full louvered coil offer protection from weather extremes.

# MODEL: RQRM PACKAGE HEAT PUMPS

**Long Lasting Durability** is built into the RQRM Package Heat Pump. The galvanized steel cabinet protects your unit from the elements – plus its slim design occupies less room in your yard and installs with a flush fit against your home. The motor mount helps protect your fan motor against damage from the elements.

**Quiet and Dependable Operation** is attributed to several design features of the RQRM. Constructed from sturdy 18-gauge G-90 sheet metal, the base rails elevate the bottom of the unit off the ground, protecting from corrosive condensation and providing air circulation around the unit. The combination of the durable cabinet, large outdoor fan, Copeland Scroll™ compressor and elevated base pan all contribute to quiet, dependable operation.

**A Protective Barrier** against vandalism and weather extremes. Each unit features full louvered protection of the sensitive condenser coil. This protection adds to the longevity of your unit.

Sure Comfort® is a new name in home comfort offering tried and true air conditioners, heat pumps, furnaces and air handlers and package units to meet the needs of your family and your budget. With advanced features, impressive performance and great warranties that all come standard, you can enjoy solutions that keep your family comfortable every day.
