RELY ON RUUD.™

# Unmatched

## Innovation You Can Count On

Patented industry-first features and 360+1 design make the Ruud Endeavor UP19AY a smart choice.

### Peace-Of-Mind Performance

Relax, you're covered by one of the best warranties in the industry<sup>1</sup>—10 Year Parts + 10 Year Conditional Unit Replacement.

### Reduced Emissions

Households generate 72%<sup>2</sup> of greenhouse gas emissions, so switching to a heat pump can make a big difference for the environment—today.

### Energy Savings

Just like a vehicle's MPG, the higher the SEER2, EER2 and HSPF2 rating (Seasonal Energy Efficiency Ratio / Energy Efficiency Ratio / Heating Seasonal Performance Factor), the higher the efficiency of your heat pump—resulting in more energy savings. Keep in mind, there are other factors that enhance overall efficiency such as system matching, sizing, ductwork and installation. By working with a properly trained contractor, you can be confident that you are choosing the best heating and cooling system for your home's comfort—and your budget.

### Rugged Curb Appeal

Curved louvered panels and rugged corner posts provide excellent support and protection to internal components, while the overall modern cabinet aesthetics, including the corrosion-resistant composite base pan and powder coat paint system, allow your unit to put its best face forward for years to come.

### Ultimate Comfort

Inverter driven, variable speed compressor technology features cooling operation between 40% and 100% of capacity (with overdrive capability up to 115% in extreme conditions) to continuously meet your ever-changing cooling needs. You'll enjoy exact temperature and advanced humidity control that combine to exceed your optimal comfort expectations.

### Quiet Operation

Efficient home comfort shouldn't be noisy. That's why our heat pumps are engineered with acoustics in mind. Sound-dampening features such as refrigerant tubing design, fan blade approach, composite base pan and innovative compressor and drive technologies ensure that as efficiency increases, sound levels remain low.

We Thought of Everything... & Then Some

We evaluate every detail of a product from top to bottom, inside and out and every angle in between. That's 360+1. And that's why you can count on this heat pump to bring you and your family years of efficient and dependable comfort.

TESTED. TRUSTED. TOUGH.

From the smallest part to complete comfort systems, we engineer quality into every piece of equipment to be sure it's tough enough to deliver the maximum performance you count on day after day, year after year. That reliability is what makes Ruud different—and better.

# Innovation

A Smart Way to Live  
Both **Comfortably**  
& **Sustainably**

Among Heat Pumps,  
**This One's a Star<sup>4</sup>**

Many Ruud products have sustainability features, but the UP19AY has earned our Sustainability Standout<sup>®</sup> seal, indicating it's among the best of the best. We created the seal to help you more easily find the products that save energy, save money and save the planet.

Earning **ENERGY STAR<sup>®</sup>** recognition means products meet strict energy efficiency guidelines set by the U.S. Environmental Protection Agency. ENERGY STAR certified heating and cooling equipment can enhance the comfort of your home while saving energy—which saves money on utility bills and protects our climate by reducing harmful carbon pollution and other greenhouse gases.

The Ruud Endeavor UP19AY operates with the easy-to-use EcoNet Smart Thermostat, which optimizes system performance and provides a new level of protection and precision comfort **with features like:**

- Communication with latest sensor technology
- Control of your thermostat from anywhere via the EcoNet App<sup>5</sup>
- Alerts sent directly to your phone or email

## FEATURES AT A GLANCE

**Cooling & Heating Efficiencies Up To:**  
20 SEER2 / 12 EER2 / 8.5 HSPF2

**Refrigerant Type: R-454B**

**Nominal Sizes:**  
2 to 5 Tons

**Cooling & Heating Capacities:**  
22.8 to 55 kBTU

**EcoNet<sup>®</sup> Enabled: Yes**

**Sound Rating<sup>3</sup>: As low as 58 dB**

**Compressor Type: Inverter Driven,  
Variable Speed**

**Condenser Coil Type: 3/8 in.**

**PlusOnes:**

**PlusOne<sup>®</sup> Diagnostics –**  
Bluetooth technology aids  
in quick & easy service

**PlusOne Expanded  
Valve Space –**  
Provides a minimum working  
area of 27-square in.

**PlusOne Triple Service Access –**  
15 in. wide industry leading corner  
service access, two-fastener  
removable corner and easily  
removable individual louver panels

**PlusOne Refrigerant  
Detection System<sup>™7</sup> –**  
Integrated, patented design providing  
system protection and homeowner  
peace-of-mind with low GWP  
refrigerant monitoring

**Limited Warranty<sup>1</sup>:**

Parts – 10 Years

Conditional Unit Replacement – 10 Years  
(registration required)

### Simplified Install & Service with Bluetooth Technology

Built-in Bluetooth<sup>®</sup> connectivity makes it faster and easier for your contractor to install and service your new system. This can help lower your costs and help make your home comfortable again—fast.

### Designing for Sustainability with Low GWP

For 2025, the Environmental Protection Agency (EPA) has set a global warming potential (GWP) limit of 700 for refrigerant used in heating and cooling systems. This new requirement will result in a 78%<sup>5</sup> lower GWP than previous-generation refrigerants—with only minimal changes to system installation. For us, this is another step toward our continued sustainability goal of reducing greenhouse gas emissions, while still delivering an exceptional level of energy efficient, dependable comfort.

## Nearly 100 Years of Innovation

[Ruud.com](http://Ruud.com)

As the only brand bringing innovative air and water solutions to homes and businesses around the world, Ruud continues to deliver advanced comfort, savings and experiences to our customers—just as we've done for nearly 100 years.
