## DUAL COPPER HEATING ELEMENT

## Fury® Rheemglas® 82V Series Floor Mounted Electric Water Heater

### High Efficiency, Long Lasting

- Isolated tank design with foam insulation reduces conductive heat loss
- High efficiency resistored dual copper heating element to prolong anode rod and tank life

### Models Feature

- High performance and lower operating cost
- Anode rod equalizes aggressive water action and prolongs the life of the water heater
- Over-temperature protector cuts off power in excess temperature situations
- Automatic thermostat keeps water at desired temperature
- Temperature and pressure relief valve included to ensure safety
- Maximum working pressure of 150 PSI (10 BARS)

Model	Tank Capacity		Stainless Steel Element		Operating Weight (Kg)	Heater Dimension		Shipping Weight (Kg)	Shipping Dim. (Approx.)			Current Draw (amps)	Over Current Protection (amps)
