

Large volume electric commercial water heaters save energy and are available in 150 to 2,500-gallon storage models

Features & Benefits

Large volume electric high power commercial water heaters are now available in 150 to 2,500-gallon storage – vertical round, vertical square and horizontal – with energy saving performance!

- Glass lined steel tank
- IncoloyTM heating elements
- Internal fusing (above 120 amps)
- Enamel finished galvanized steel jacket
- Magnesium anodes
- Immersion thermostat
- Manual reset high limit
- Full length hinged doors with key lock
- Terminal block connections
- ASME temperature and pressure relief valve
- Channel iron skid base (except 150 & 200-gallon round models)
- 180° F temperature operation
- 125 PSI working pressure
- Hand-hole sediment cleanout
- Safety drain pan (square models)
- Control voltage on/off switch with pilot light

Optional Features

- Low water cut-off
- Pilot lights
- Manual limiting switches
- Alarm bell
- Shunt trip disconnect (Field installed)
- Low or high water pressure switch
- Lifting lugs
- Time clock (7 day or 24 hour)
- Safety door interlock
- Temperature and pressure gauges
- Manway (250-gallon and larger capacity models only)
- 150 psi or 160 psi working pressure
- Electronic step controller
- Seismic attachment point (250 gallon and larger – specify city, state and seismic zone)

Warranty

3-Year limited tank warranty

See Commercial Warranty Certificate for complete information

Efficiency | All models meet or exceed ASHRAE energy efficiency standards

Safety and Construction | ASME construction and National Board listed and UL 1453 listed

Ruud Large Volume Electric

150 to 2,500-Gallon Capacities
Voltages: 208, 240, 277, 380,
415, 480 and 600
Vertical Round & Square and
Horizontal

Vertical Round Models 150-1000

Vertical Square Models 1250-2500

*An oversized control panel may be required on models with inputs above 72 kW. An oversized control panel may increase the width and depth of the square jacket by up to 2".

Horizontal Models

							INLET	OUTLET	
VERTICAL ROUND									
EVRO150	144	150	65-1/2	32	38-3/4	7-3/4	1-1/2	1-1/2	650 lbs.
EVRO200	162	200	78	32	38-3/4	7-3/4	1-1/2	1-1/2	750 lbs.
EVRO250	162	250	92	34	40-3/4	19-1/2	1-1/2	1-1/2	1,165 lbs.
EVRO300	162	300	80	40	46-3/4	21	2	2	1,350 lbs.
EVRO400	162	400	80	46	52-3/4	22-1/2	2	2	1,590 lbs.
EVRO500	396	500	92	46	52-3/4	22-1/2	2	2	1,700 lbs.
EVRO600	396	600	92	52	60-3/4	24-1/2	2-1/2	2-1/2	2,010 lbs.
EVRO800	396	750	104	52	60-3/4	24-1/2	2-1/2	2-1/2	2,450 lbs.
EVRO1000	396	950	128	52	60-3/4	24-1/2	2-1/2	2-1/2	3,160 lbs.

• Vertical round models above 90 KW at 208V, 240V, or 380V and 162 KW at 415V, 480V or 600V exceed the capacity of a single control box and may require multiple control panels. Consult the factory for specific details and optional construction.

• Vertical square construction is available as an option for models that exceed the listed KW limits.

• Control panel heights on vertical round models may exceed tank height – consult factory for specific heights on models with inputs above 72 KW.

Recommended Specifications (for trade reference only)

Water heater(s) shall be Ruud model _____, having electrical input of _____ kW. Water heater(s) shall have a storage capacity of _____ gallons. Water heater(s) shall have the UL seal of certification and have a factory supplied CSA/ASME rated temperature and pressure relief valve. Tank(s) shall have a coating of high temperature porcelain enamel and furnished with magnesium anode rods rigidly supported. Water heater(s) shall meet or exceed the standby loss requirements of ASHRAE. Tank(s) shall have a working pressure of 125 psi, and shall be completely assembled. Water heater(s) shall be approved-listed and constructed in accordance with UL 1453. Water heater(s) shall be equipped with “screw-in” type elements featuring a stainless steel

outer sheath of incoloy material. Tank shall be insulated with rigid polyurethane foam insulation. Water heater(s) shall be provided with internal power circuit fusing, control circuit fusing, magnetic contactors, 120 volt control circuit transformer and immersion thermostat(s) with manual reset high limit control. This product features a three year limited warranty against tank leaks.

ASME Construction (for trade reference only)

Water heater(s) shall be constructed in accordance with the requirements of the ASME Boiler and Pressure Vessel Code, Section IV Part HLW.

In keeping with its policy of continuous progress and product improvement, Ruud reserves the right to make changes without notice.
