DIGITAL

GAS POOL & SPA HEATER

Trusted Design

Named #1 Pool Heater by Forbes, the Rheem Digital Gas is a tried and true favorite among pool pros. Its durable design and intuitive controls make it one of the strongest workhorse pool heaters on the market. This pool and spa heater is the perfect solution for environments requiring efficiency, convenience and versatility.

AMAZING FEATURES

Heat Exchanger

Our heat exchangers last longer thanks to our straight tube design. By eliminating bends and helical coils we have reduced unnecessary friction in critical areas. Digital Gas models are available in copper or cupronickel.

Flexible Installation

Whether upgrading an existing system or adding a new pool or spa, the Rheem Digital Gas Pool and Spa Heater offers flexible installation solutions thanks to a brilliant low-profile design.

Self-Adjusting Burner

The self-adjusting burner compensates for gas pressure fluctuations, ensuring that the heater will always burn clean and safe.

ProTek Shield

ProTek Shield is a cutting-edge module that protects the heat exchanger and extends the life of your Rheem Digital Gas Pool and Spa Heater.

- Excellent for use in chlorinated and salt water pools
- Engineered to take the brunt of the corrosion that naturally occurs over time
- Compact design
- Easy to replace

Strength & Durability

It is built to last with its corrosion resistant cabinet made of galvanized metal and your choice of a copper or cupronickel fin tube heat exchanger. Designed to withstand even the harshest of weather conditions.

Digital Controls

Equipped with an intelligent control system that can easily be tied into an existing remote system, our heater also features a microprocessor-controlled thermostat for setting the perfect temperature for your pool or spa.
