Eemax MiniTank Electric Water Heaters

Here's an example of how you can use Eemax MiniTank as a simple hot water temporary supply solution. Just connect and plug into a standard 120V GFCI Outlet.

QUICK, EASY STEPS TO REGAIN HOT WATER

- Purchase all of the recommended components separately
- Assemble your unit
- Connect your tank to a water source – hose bib, faucet adapter
- Plug in to a power source – house 120V or generator
- Set your temperature
- Hot water is now available

Detailed Do It Yourself Instructions can be found on eemax.com.

After the storm recovery is complete here are some alternative applications you can use MiniTank:

- Point-of-use • Outdoor showers • Pool house • Garage • Barn

Perfect for delivering hot water to a remote location, sink or even as a boost to a dishwasher, MiniTank can be installed anywhere that water and an electrical outlet are present.
