

VERSUS™

FEATURES AT A GLANCE

Cooling Efficiency:
15.2 SEER2 / 9.8 EER2

Nominal Sizes: 2 to 5 Tons

Cooling Capacities: 22.8 to 56 kBTU

Sound Rating³: As low as 72 dB

Compressor Type: Inverter Driven,
Variable Speed Twin Rotary

Condenser Coil Type²: 7mm

FEATURE HIGHLIGHTS

**Variable Speed Twin Rotary
Compressor & Inverter Drive:**
Variable speed operation or 3-speed
operation (with 24V Two-Stage
Thermostat)

Diagnostics:
Bluetooth technology aids in
quick & easy service

Limited Warranty⁴:
Parts – 5 Years

Simplified Install & Service with Bluetooth Technology

Built-in Bluetooth® connectivity makes it faster and easier for your contractor to install and service your new system. This can help lower your costs and help make your home comfortable again—fast.

Rheem Sales Company, Inc. manufactures the WeatherKing brand of residential heating & cooling products. In keeping with its policy of continuous progress and product improvement, Rheem reserves the right to make changes without notice.

¹For complete details of the warranties, including applicable terms and conditions, contact your local Contractor or go to WeatherKing.com for a copy of the product warranty certificate. ²5-ton models feature a 3/8 in. condenser coil. ³Based on Internal R&D Testing, May 2022. Sound levels are also dependent on proper installation and location of outdoor product.

RULE IN COOL COMFORT

Air Conditioner
WA15AZ

VERSUS™

WeatherKing® Versus™ Line

The WeatherKing Versus Line WA15AZ Air Conditioner makes it easy to keep your castle consistently comfortable. It's designed for energy-efficient performance that saves you money while delivering peace of mind.

WeatherKing.ca

A Powerful Performer

Innovation You Can Count On

Patented industry-first features and advanced design make the WeatherKing® Versus™ WA15AZ a smart choice.

Peace-Of-Mind Performance

Relax, you're covered by a dependable warranty¹—5 Year Parts.

Less Environmental Impact

The 7mm condenser coil² provides a decrease in refrigerant requirements up to 15%, lowering the amount of greenhouse gases emitted while contributing to our sustainability goal of a 50% reduction in our greenhouse gas footprint by 2025. A win for all of us.

Energy Efficiency Savings

Just like a vehicle's MPG, the higher the SEER2 and EER2 rating (Seasonal Energy Efficiency Ratio / Energy Efficiency Ratio), the higher the efficiency of your air conditioner—allowing for energy savings month after month. Keep in mind, other factors such as system matching, sizing, ductwork and installation also affect overall efficiency. By working with a properly trained contractor, you can be confident that you are choosing the best heating and cooling system for your home's comfort and your budget.

Durable Curb Appeal

Curved louvered panels and rugged corner posts provide excellent protection to internal components, while modern cabinet aesthetics including the powder coat paint system allow your unit to put its best face forward for years to come. This model also features a one-piece drawn and painted base pan. The pan elevates the coil off the pad helping minimize corrosion while also reducing sound.

Genuine Comfort

Inverter driven, variable speed, twin rotary compressor technology features cooling operation between 40% and 70% of capacity (ramping up to 100% when required) to continuously meet your ever-changing cooling needs. You'll enjoy exact temperature and advanced humidity control that combine to exceed your comfort expectations.

Quiet Operation

Efficient home comfort shouldn't be noisy. That's why our air conditioners are designed with acoustics in mind. Integrated sound-dampening features such as refrigerant tubing design, fan blade approach, a one-piece drawn base pan and innovative compressor and drive technologies let you enjoy more efficiency—and less noise.
